

Lakeside Book Company
We print, store, and sell your books.

SUSTAINABILITY PLAYS AN IMPORTANT ROLE IN WHAT WE DO.

During the first year of our partnership with PrintReleaf, we offset millions of pounds of paper by planting nearly 100,000 trees in critical reforestation projects across North America and Europe.

Let's Make a Lasting Impact

Automatically turn paper consumption into certified reforestation projects, designated for conservation and restoration. Extend the life of your books and join us in supporting reforestation for the titles you choose. **For 1¢ per book we'll double your impact.** Together, we'll plant thousands more trees each year.

Certified Reforestation Service

- **Measure:** Paper consumption data is collected via streamlined data transfers to measure forest impact.
- **Calculate:** Data is analyzed to calculate how many trees were harvested for the paper consumed.
- **Offset:** Trees are planted in global reforestation projects.

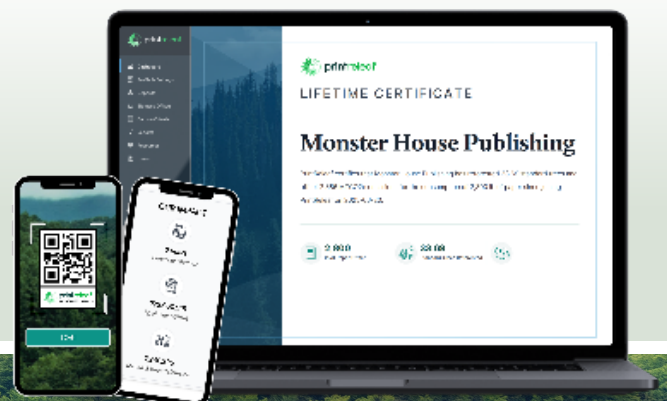

Sustainability Journey

- If desired, account users can have their own login credentials, providing easy access with either restricted or full visibility.
- Share real-time reforestation data with lifetime impact certificate, optional QR codes, website widgets, and more.

**JOIN US IN MAKING
A LASTING IMPACT!**
