

LET'S MAKE A LASTING IMPACT WITH REFORESTATION

Automatically turn your paper consumption into support for certified reforestation projects. **For just 1¢ per unit** on your selected titles, fund the planting of one tree for every 83 books produced.

With Lakeside Book matching your investment, those same books help plant two trees instead of one.

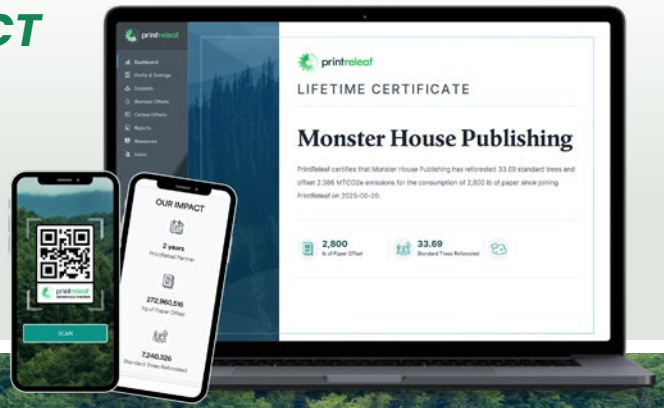

Certified Reforestation Service

- **Measure:** Paper consumption data is collected via streamlined data transfers to measure forest impact.
- **Calculate:** Data is analyzed to calculate how many trees were harvested for the paper consumed.
- **Offset:** Trees are planted in global reforestation projects.

Sustainability Journey

- Share real-time reforestation data with lifetime impact certificates, optional QR codes, and more.
- Optional: Set up account users for your company with their own login credentials, providing easy access to data.
